

Space
by Lexi Rosenberg

Verse 1:
How did I get in this position?
I'm running wild and no one can stop me

I'm playing fate with my decisions
Life is a game and winning comes easy

Pre-chorus:
When I hit the pavement
You're not even on my mind
I can be so untamed but you ride, you ride yeah
God knows I could be saving
All your money and time
Are you really okay?
Don't lie

Chorus:
I should've given you space
Ooh (7x)
Didn't even hesitate
I should've given you space
Ooh (7x)
But ya take me to a different place
Maybe I treated you wrong, but you wanted it, right?
Either way I'm leaving you tonight
I should've given you space
Ooh (7x)

Verse 2:
You think you know me for a moment
Then I go breaking your heart to pieces

I know that what I did is hurting
So I quit

Pre-chorus:
When I hit the pavement
You're not even on my mind

I can be so untamed but you ride, you ride yeah
God knows I could be saving
All your money and time
Are you really okay?
Don't lie

Chorus:
I should've given you space
Ooh (7x)
Didn't even hesitate
I should've given you space
Ooh (7x)
But ya take me to a different place
Maybe I treated you wrong, but you wanted it, right?
Either way I'm leaving you tonight
I should've given you space
Ooh (7x)

Bridge:
Space space space, I know you suffocate
Space space space, and I'm the one to blame

Chorus:
I should've given you space
Ooh (7x)
Didn't even hesitate
I should've given you space
Ooh (7x)
But ya take me to a different place
Maybe I treated you wrong, but you wanted it, right?
Either way I'm leaving you tonight
I should've given you space
Ooh (7x)
